# BelAZ: Largest Dump Truck in the World

These are unique large vehicles with impressive dimensions and capabilities: To go on a tour to one of the most important Belarusian enterprises means:

- To visit a large machine-building facility of the country and learn the history of its creation;
- To see the conveyor belt that gave to the quarry dump truck listed in the Guinness Book of World Records
- To perform test drive of a multiton truck;
- To take a look at the examples of quarry machines used around the world
- To take a photo next to the 450-ton quarry dump truck – the biggest one in the world!

## It's so big!

Moving on a public road, BelAZ would occupy three traffic lanes; when put across, it alone can block all lanes of the ring road and the wayside.

# Minsk Tractor Works: One out of Ten

One out of ten tractors in the world is manufactured by Minsk Tractor Works. What makes the products of this machine-building giant so popular? How do Belarusian special machines attract large international importers? What is the secret of high performance of our tractors? A tour of the Minsk Tractor Works answers all these questions!

 [belarus-tractor.com](http://belarus-tractor.com)

## Take note!

During the tour of the factory, you can take a ride on the powerful Belarus-3522 tractor or take part in assembling a machine.

# Belorussian flax is an eco-brand of the country

Flax is the symbol of Belarus. Souvenirs made of this flourishing northern silk is the pleasing at touch and precious memory of our country.

The guests can learn everything about weaving, flax growing and processing in the Orsha Flax Factory, which is happy to welcome every interested visitor. Don't know what to bring your family and friends? You'll find plenty of options here!

## That's interesting!

Linen clothes are not only beautiful, but also incredibly useful: flax, being a natural antiseptic, has a positive effect on the skin and even helps relieve stress.

## Symbols of the Belarussian ornament

Fire

Prosperity

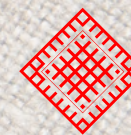

Spring

Growth

Life

Earth

Beauty

Youth

Ancestors

Sun

Purity

Star

## Can you believe?

Belarusian ornament can be read like a book. It almost invariably has clear geometry: lines, crosses, diamonds, squares and stripes.

# Babushkina Krynka: Rivers of Milk

Belarus is famous for its dairy products. The guests of our country keep asking: why is our sour cream so tasty? You can take the look at the way the incredibly healthy and natural dairy products are made by visiting one of the largest plants in the country – Babushkina Krynka. A tasting session is always organized after the tour. Don't miss it: it's going to be delicious!

 babushkina.by

## Did you know?

Milk has great cleaning properties.  
With the help of milk, you can remove  
stains from clothes or dark tarnish  
from golden pieces.

**Chocolate glazed curd bars are the favorite treat of the guests of Belarus. People say they have been invented over a century ago.**

# Alivaria: Golden Taste of Belarus

Brewing is traditionally considered a national Belarusian craft. It is really interesting to see how delicious beer is made and learn the ancient recipe of 1864, which became the cornerstone of modern brewing. The very visit to the production plant located in a 120-year-old building is already an incredible pleasure for an experienced tourist.

## Cold remedy:

heat up 0.5 l of unfiltered beer, add some caraway seeds, mustard seeds and fresh horseradish root (or half a spoon dry horseradish). Cover with a lid, allow to infuse and drink at the first signs of cold.

# Neman: Glass Magic

Beautiful and exquisite glass items are the calling card of Belarus. Designed in accordance with age-old traditions, they captivate the imagination and make you fall in love with them at first sight. A tour of the glass factory will help the guests understand all the nuances of glass work, try their hand at glass-blowing and take a look at the newest product lines of Belarusian glass production.

 [neman.by](https://neman.by)

## That's interesting!

Glass-blowing is one of the few arts that emerged about 5 thousand years ago and remained nearly unchanged today.

# Spartak: Sweet Fantasy

Belarusian sweets are known and loved in many countries. What makes them so delicious? What is the secret of their popularity? Visit the confectionery plant in Gomel, take a walk through the running production shops and dive into the atmosphere of sweet fantasy; taste the finger-licking sweets fresh from the conveyor line, made with the use of traditional recipes preserved since 1924.

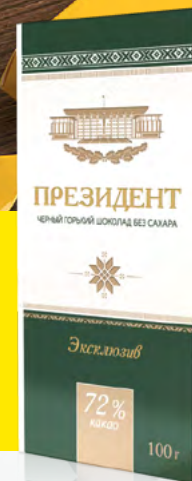

# Kommunarka: To the World of Childhood Dreams

Every today's adult used to dream about visiting the land of sweets in their childhood. Today, you have a chance to do it. The captivating journey around the unique confectionery plant situated in the Belarusian capital will remain in your memory forever.

A pleasant tasting session will also lift your spirits. People say that chocolate is the best source of positive emotions. Belarusian chocolate proves it twice!

"The President" is the unique line of chocolate unparalleled anywhere in the world. This is a kind of chocolate with special piquant taste made of a blend of cocoa liqueurs without addition of sugar.
